

K-LOVE radio at FM 91.3 serves San Antonio by providing commercial free Christian broadcasting that uplifts the listeners and provides support for those trying to live a moral lifestyle, especially teens and 20-30 year old listeners. By displacing K-LOVE by an LPFM broadcaster you will wipe out the positive, uplifting influence of our current radio station; please do not leave us in a void! K-LOVE airs music, news, and commentaries that are very much in tune with local public interest by including regional and metro news and info on an hourly basis as well as news nation and world wide.
